

Southern Growth Policies Board

The Road to Recovery

Making Choices for your Community

Date:

Time:

Location:

These are challenging times. Maybe you or a friend or neighbor has lost a job. Maybe your child's classroom is overcrowded because the school system has had to cut back on teachers. Or, maybe you're concerned to see more empty storefronts downtown.

Join other community residents in an open discussion on how to respond to current economic challenges in our community, while trying to position ourselves for economic success in the future. As a forum participant, you will be joining thousands of other Southerners, who are holding similar conversations across the region, to develop strategies for economic recovery.

Your community's feedback will be used in developing Southern Growth's *2010 Report on the Future of the South*, a high profile policy report that is shared with Southern Governors and regional leaders in business and education.

Southern Growth Policies Board is a regional public policy think tank representing 13 Southern states that develops and advances visionary economic development policies. For more information on Southern Growth Policies Board, visit www.southern.org.
